ABOUT INSPIRE...

As a keen crafter myself, I search online for everything. I enjoy reading what others have to say, enjoy looking at what others are doing, and enjoy downloading free patterns and giving them a go to expand my crafting abilities and experience.

As a Business Owner, I am always on the lookout for how best to advertise my business and it's offerings, and I have spent a lot of money advertising in magazines that get flicked thru and put aside for a rainy day, of which time my special offer to new customers has expired, or advertised to a wide variety of people of which only a small percentage are into craft and really paying the slightest bit of attention to what I am offering.

We all like something for free, and with the internet as our advertising medium, we can do much more with our advertising money. Its always a matter of finding the right vehicle.

So 'Inspire' has been developed as an online magazine to provide a high quality online magazine for readers and in turn offering a combined advertising opportunity to Designers and Craft Business People. **We have an International Readership, the ability to publish up to date information and sales, and advertising starts from only \$15.00.**

Because it is an online magazine, there are no printing costs, so our production costs are minimal, keeping advertising rates low.

'Inspire' is published bi-monthly as a PDF with a particular theme in mind, and is downloadable from the website. With PDF technology, we can produce a full color magazine and link your ad or spot straight thru to your website so readers can view what you have to offer as they are reading the magazine.

The Magazine is available to readers on the 1st of each publishing month. Every edition that we publish will be left on the website so readers can view and download past editions. Your advertising will be viewable by potential customers for much longer than 2 months!!!

Because of the format of our Magazine, we can be very flexible with what we feature and how we go about so please don't hesitate to contact us if you feel you don't fit into the mould. We have turned to a BLOG format for the main website to capitalize on the popularity of BLOGGING and the ease of networking BLOGS, and believe this will bring growth to the magazine in many ways.

We look forward to working with you in the near future.

OUR READER...

WHO IS OUR READER.....

Our readers are keen and talented crafters and decorators who love something for nothing. It seems that craft is big money these days and with the average cost of living growing more expensive by the month, our readers appreciate a magazine that aims to offer everything a print magazine offers, with up to date information, and all for free.

WHAT READERS WANT..

Readers love anything free. They want to walk away from reading our magazine feeling inspired and ready to tackle their next craft project. They want giveaways, free projects, information that will help them be better crafters and decorators. They want to access the latest news of the newest releases to the craft market, they want to be told first when a new product is available. They want to find out where they can get their supplies, and where they can meet new people.

CONNECTING WITH READERS...

You as an advertiser have a unique opportunity to connect with our readers now. Don't wait 6 months for your magazine advertising to be published, you want extra sales now right. You want to be able to release your new product when it is released not in 6 months time. You want to provide opening specials now, within the next 6 weeks.

You can be involved by partnering with us in advertising in the magazine or by contributing to our magazine by offering a giveaway or project, or by simply offering them the chance to get something at a great price.

We want to inspire crafters to continue crafting and decorators to continue decorating!!!

HOW IT WORKS...

MARKETING

Our Marketing of this Online Magazine is broad and continual. We have listed the magazine on every free craft directory we could find, and we have paid for featured advertising in a number of online directories and markets. We aim to be 'featured' on one popular website each month.

We have found our biggest marketing tool to be word of mouth. Many designers and craft shops have advertised our magazine through their websites (of which a banner is available), and through their blogs. We are also beginning to use the large-scale networking that can happen by linking to BLOGS.

We encourage crafters to sign up to our mailing list, and they are emailed when the new editions are ready for download. We also ask advertisers and website owners to spread the word by featuring our banner on their website.

FREE ADVERTISING—SUBMISSIONS

Free advertising will be offered in a number of ways and may change over time. Below are the current openings:

PROJECT SUBMISSION—If you are a designer and you would like to get some exposure, this is a good way to do it. The Project must be a new project that you haven't released as yet (you must be willing to leave the project as an exclusive project for the month of the issue).

ARTICLE SUBMISSIONS—Another good way to gain exposure. If you have a bit of know how in your Industry and you would like to write an article with some up to date current information, then you may wish to submit an article for review. If you submit an article, you have the benefit of having your business banner and information at the bottom so readers can check out what you have to offer.
